

Problem:

Something is wrong with my computer. I want to setup my office with computers but don't know where to start. What **brand of hardware** should I buy?

Solution:

We can help you with all these questions in our Entry Level Service offering. Our focus is to provide alternative solutions to your “**business problems**” so that you can make an informed decision.

Our competitors tend to give you only one technical solution, as they are often driven by hardware sales. This is one of our key differentiators. We provide Tier 1 hardware without any biases and use our purchasing power to save our customers money.

Feature Highlights:

- Infrastructure Services
- Design and Architecture
- Hardware Procurement
- Software Procurement
- Break-Fix Services
- Consulting Services
- Initial I.T. Assessment
- Internet Services
- Website Hosting
- Email Hosting (basic)

Other services are available. Contact us for more details. All services are quoted on a Time and Material basis.
